Globethics Publications

Globethics is an international non-governmental organisation working for ethical leadership through the integration of academic and public engagements. Registered in Geneva, Switzerland, as an independent, not-for-profit foundation.

The *Globethics Publications* contributes to ethics education and applied ethics. Since the release of its first volume on Responsible Leadership by Globethics.net Publications in 2007, the publishing house has established itself over the past decade as a reputable source of literature in the field of ethics.

With over two hundred and sixty books written and edited by authors and academics from all continents with works published over seven languages, the collective body of work truly represents a global approach to ethics. The books contribute to teach leadership through research to the international community.

One of the original convictions of the Founder and President, Dr Christoph Stückelberger, when he founded Globethics.net was to make reliable information accessible to individuals in developing countries. Following this direction, *Globethics.net Publications* is firmly committed to making scholarly works on applied ethics from theological, philosophical and social science accessible to a broad audience in all parts of the world.
