Geneva, June 2016

Welcome to the Global Ethics Forum 2016 Conference!

Dear Conference Participant,

We are pleased to welcome you to the seventh edition of the Global Ethics Forum, a global, solution-focused and multi-stakeholder annual event, organised by Globethics.net. The aim in 2016 is to promote values-driven leadership in the higher education sector, through inspiration, discussion and action during the Forum as well as through the creation of workgroups on a range of projects.

The Global Ethics Forum is focused this year on ethics in higher education with a programme that gives you the opportunity to learn from and dialogue with experienced speakers and other participants in plenary sessions and workshops around four areas:

- **Teaching** - reflection and action to integrate responsibility in teaching in order to transform students into responsible citizens and future leaders;
- **Research** - reflection and action to integrate responsibility in research;
- **Governance** - reflection and action to turn the spotlight back on to the institutions themselves, in order to become pioneers as values-driven organisations; and
- **Society** - reflection and action to integrate the notion of responsibility in the discussion with higher education's main stakeholders.

Our thanks go to our partners and sponsors, to the Globethics.net Board of Foundation, to the staff in Geneva and in the regions for their time and dedication and to you, dear participant, for coming. Let us work together to foster the integration of ethics in the entire higher education sector!

HE Dr h.c. Walter Fust
