# Introduction

- Human-made Social and Environmental Problems
- Scholars's involvements in creating various problems
- What's wrong with our higher education system and ethics?

# Ethical challenges

- Visions and dreams of Life
- Visions of living together in a small earth
- Paradigms of our scientific inquiries and goals

## PROPOSALS: Spiritual Ingredient

Higher education with awareness about living space shared by all humans and other seen and unseen creatures

Prophetic Paradigms:

Traditions of the Prophets towards ethical life, purposes, better order, long-term, sustainable life, predictions over acts and consequences

## Examples of Possible Practices

Incorporate ethical points in all students assignments

Begin the day of learning with 'silent moment'

Students' purposes of life after graduation

Oaths/pledges as graduates of higher education
